

Dead Zones - The Plague of the Ocean

Science Inquiry Project Log Book

The content of your Log Book should include a brief summary of what you do each day on your project. This can include a list of topics/questions you are choosing when deciding what to do for your project. A list of websites used, background information you may have, results of an experiment. It does not have to be super detailed as its purpose is to show the progression of your project.

Student Name: Vanessa Szot / Clare Cheng

Date:	Summary of what you worked on:
December 13th	We came up with a possible title and a good topic: Dead zones. We also worked on the info, mostly just the basics like what it is, how it occurs, etc
December 14th	We talked about how we would do some things like what to talk about and worked on it. We also figured out what kind of research we would have to do.
December 15th	We planned and worked more. We also started to gather more info from websites online.
December 17th	More info on what we had and on new things. We found many good websites and started to put more information into our docs
